EXPERIENCE

Modern Web and App Development Course| May 2024 - Jun 2025
Saylani Mass IT Training
- Learned HTML, CSS, and Bootstrap with multiple mini projects and converted Figma designs to code in a hackathon.
- Studied JavaScript in depth, completed quizzes, and built major real-world projects.
- Developed frontend skills using React.js, with projects built using CRA and Vite.
- Built full-stack applications using Node.js, Express, MongoDB, and connected them with React frontend.

Frontend Developer| Jun 2025 - Nov 2025
Applotech
- Worked on real-world web development projects during remote internship at Applotech Software House.
- Developed and deployed a client's live website using Next.js, ensuring performance and responsiveness..
- Collaborated effectively with team members to deliver high-quality results within deadlines.
- Enhanced skills in teamwork, project collaboration, and modern web technologies.

MERN Stack Insternship| Nov 2025 - Continue
SMIT Bootcamp 3.O

- Worked on real-world MERN Stack projects and contributed to Saylani-owned products under the guidance of experienced mentors.
- Built and improved multiple modern web applications, ensuring clean code, strong performance, and responsive UI/UX.
- Collaborated effectively with team members to deliver high-quality results within deadlines.
- Attended intensive sessions with industry experts, gaining valuable exposure to real-world software practices and professional development.

PROJECTS

Shiwani Textile Ecommerce Website
Frontend Using Next js

- Designed and developed the Siwani Textile client website using Next.js, implementing modern UI and responsive design principles.
- Created multiple dynamic pages with optimized routing and seamless navigation.
- Focused on website performance, responsiveness, and user experience for better client satisfaction.
- Successfully deployed the live website: https://shiwanitextile.com/.

HS Outfitters Clothing Website
Frontend Using Next js

- Designed and developed the HS Outfitters client website using Next.js, ensuring a modern and responsive user interface.
- Built multiple dynamic pages with optimized routing and smooth navigation.
- Integrated backend APIs to connect and display real-time data effectively.
- Collaborated with the team to enhance website performance, responsiveness, and deployment on the live server: https://hsoutfitters.com/.

Clinic & Appointment Management System
MERN Stack (Next js, Express js, Mongo db)

- Designed complete project documentation and ERD to define system structure and workflow.
- Enabled users to manage and store their medical records for themselves and their family securely.
- Added essential modules including appointments, room allocation, and user handling with secure access control.
- Designed and built responsive, user-friendly dashboards optimized for smooth clinic operations and better workflow management.

SKILLS

- **Frontend** : React.js, Next js, React Native, JavaScript, HTML, CSS
- **Backend** : Node.js, Express.js
- **Database** : MongoDB, My SQL
